

HAREESH JANAGANI

MERN Stack Developer | Java Developer

janaganihareesh@gmail.com | +91 9121736453 | Andhra Pradesh, India

[GitHub](#) | [LinkedIn](#) | [LeetCode](#) | [GeeksforGeeks](#)

PROFESSIONAL SUMMARY

Motivated Full Stack Developer specializing in building scalable, real-time web applications using the MERN stack. Skilled in designing RESTful APIs and deploying production-ready systems on Vercel and Render, with a strong foundation in Data Structures & Algorithms.

EDUCATION

B.Tech – Computer Science and Engineering (Artificial Intelligence & Machine Learning)

Mohan Babu University | CGPA: 8.1/10.0 | 2023–2027

TECHNICAL SKILLS

- **Languages:** Java, JavaScript (ES6+)
- **Frontend:** React.js, HTML5, CSS3, Responsive Web Design
- **Backend:** Node.js, Express.js, Socket.io
- **Databases:** MongoDB, SQL, MySQL
- **Testing & Tools:** Postman, Git, GitHub, VS Code, npm
- **Concepts:** Data Structures & Algorithms, OOP, DBMS, OS, Computer Networks, MVC Architecture
- **Deployment:** Vercel, Render

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern — ServiceNow Virtual Internship Program | SmartBridge & AICTE Jan 2026 – May 2026

- Completed structured virtual internship covering ServiceNow Administration, workflow automation, and deployment practices.
- Built and validated automated workflows using Flow Designer and ATF; prepared for Certified System Administrator (CSA) exam.

PROJECTS

1. CloserAI | Universal Intelligence OS | [Live Demo](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB, Socket.io, Gemini/Groq API, Pinecone, Puppeteer

- Architected an autonomous operating system with swarm-based multi-agent orchestration (Architect, Coder, Researcher personas) and long-term memory using Pinecone vector search for semantic retrieval.
- Built real-time streaming chat and autonomous browser agents (Puppeteer) capable of surfing the web and writing/executing code, alongside multi-modal features like live vision, voice (Edge-TTS), and OS-level command execution.

2. LinguaSphere | Multilingual Communication Platform | [Live Demo](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB, Vercel, Render

- Built a multilingual platform enabling real-time interaction across 10+ languages for 500+ users with sub-200ms translation response time.
- Optimised MongoDB queries with indexing, improving API response time by 45%; deployed on Vercel (frontend) and Render (backend).

3. TeluguChat | Real-Time Moderated Chat Platform | [Live Demo](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB, Socket.io, JWT, Postman, Render

- Developed a real-time Telugu chat app supporting public & private messaging for 200+ concurrent users using Socket.io bidirectional communication.
- Integrated a content moderation pipeline, reducing inappropriate message throughput by 90% and improving platform safety.

CERTIFICATIONS

ServiceNow Virtual Internship Program | SmartBridge & AICTE, Ministry of Education | Cert ID: SNU2024814 | May 29, 2026

Modules: ServiceNow Admin Fundamentals, Introduction to Flows, Reports, CSA Exam Preparation, Micro Certification

ACHIEVEMENTS & AWARDS

- Special Appreciation Award – AI X Anantapur Police Hackathon 2K26: Developed an AI-based solution recognized by law enforcement representatives for innovation and practical application of AI technologies.
- Consistently solved DSA problems on LeetCode and GeeksforGeeks, strengthening problem-solving and algorithmic thinking.
- AICTE-certified ServiceNow intern with hands-on experience in Agile practices, ATF testing, and enterprise platform administration.
- Quick learner — independently explored new technologies and DevOps deployment practices.
